

Public Input to the FCC
Telecommunications Relay Service Docket CG 03-123
September 14, 2006

Hello, my name is Socorro Garcia. I have been here five years now at Gallaudet. I'm sure that you have already collected a lot of issues in terms of deaf services, and I just want to give you one more. VRS has been open now to everyone 24 hours a day, seven days a week. However, for the Spanish service for those who speak Spanish, the hours are limited. We're asking for the hours to be expanded so that we have equal access, just like the 24-7 for English. We would like to have that available for Spanish speakers. Thank you for your time.
